Notice

THE subscriber new offers for sale, delivered in Baltimere, and at prices corresponding with the half-THRESHING MACHINES, for threshing Wheat, Rye, Oats, and small seed, and cracking Corn in the ear for the purpose of preparing it for food for cattle.

The improvement which makes these Machines super-

rior to any now in use in the Southern and even Northern country, is because of the body of the cylinder being cast Certificates of Paskages of 26 Whole Tickets, \$140.00 in one or two pieces, with heads and teeth or points all 20 00 cast together, being a solid mass—thereby giving to it additional weight, and obvicting the danger of the spikes flying out, as sometimes happens with the wooden cylender, which greatly endangers the lives of the aperatives. performance, for the reason of their having been success fully tried for three years past, and as yet no objection has been made known to the Agent.

Being the only Agent in North Carolina, to dispose of said Machines, and living as I do in a remote section of country, I feel it to be incombent on me to give notice that through the columns of some of the public organs, that the farmers and others may supply themselves (if they
